

PULL&BEAR

Animal welfare

All Pull&Bear products including materials of animal origin comply with the applicable Inditex standard. This policy requires that these products must always come from animals treated in an ethical and responsible manner. Under no circumstances may animal products deriving from animals slaughtered exclusively for the sale of their skins, shells, horns, bones, feathers, down or any other material be used. Pull&Bear does not sell products containing fur, in keeping with the principles of the Fur Free Retailer Program (Fur Free Alliance), of which the Inditex Group is a member. Neither the cosmetics sold by Pull&Bear nor their ingredients have been tested on animals.
